Student Online Course Survey

For fall 2018, for almost all courses, CSU has placed the student course survey entirely online and it can be accessed via any of your fall courses in Canvas. The survey will be available from November 26 through December 14, 2018.

In a Canvas course, on the left course menu, click on the Course Survey link to see a list of all of your courses and instructors.

Please Note: Course Surveys in Fully Online Courses may have an older, pre-existing survey link in a course module. This old link leads to a previous course survey delivery mechanism that is no longer functional. Students should use the Course Survey link on the left course menu.

You will see your current semester courses and instructors listed and a survey link for each. Click Complete Course Survey to start a survey for a course/instructor.

**Multiple Instructors;**
If your course section has multiple instructors, when you click on “Complete Course Survey: you will see each instructor listed.

- Fill out a survey for each instructor with whom you interacted.
- If you did not interact with one of the multiple instructors, do not fill out a survey for that instructor.

Q0. Would you like to provide feedback on this course (Descriptive Physics Laboratory) as it relates to your course taught by Cam Ram

- Yes
- No
You will see the survey questions and the rating scale for each question.

- Please answer all questions.
- The final question will allow you to type any comments.

When you finish the survey you will see this message:

```
We thank you for your time spent taking this survey. Your response has been recorded.
```
